

## Share Your Work!

You've put a lot of hard work into this program, and it's time to show it off! That's one of the best parts of data visualization :). If you'd like, post your visualizations on social media with the **#madewithudacity** hashtag. If we like what you've done, we may repost it!

## Twitter

The screenshot shows the Twitter interface for the #madewithudacity hashtag. At the top, there's a navigation bar with icons for Home, Moments, Notifications, and Messages, along with a search bar containing the hashtag. Below this is a blue header with the hashtag #madewithudacity. Underneath the header are tabs for Top, Latest, People, Photos, Videos, News, and Broadcasts. The main content area is divided into two columns. The left column, titled 'Search filters', includes a 'Who to follow' section with profiles for Franklin Graham, Andrew Ng, and YouTube. The right column, titled 'People', shows a list of users who follow the hashtag. The first user is Udacity (@udacity), which is followed by the user. The second user is DuckDuckGo (@duckduckgo), which is not followed. Both users have bio descriptions and are followed by other users.
