

## Text Walkthrough of Previous Video

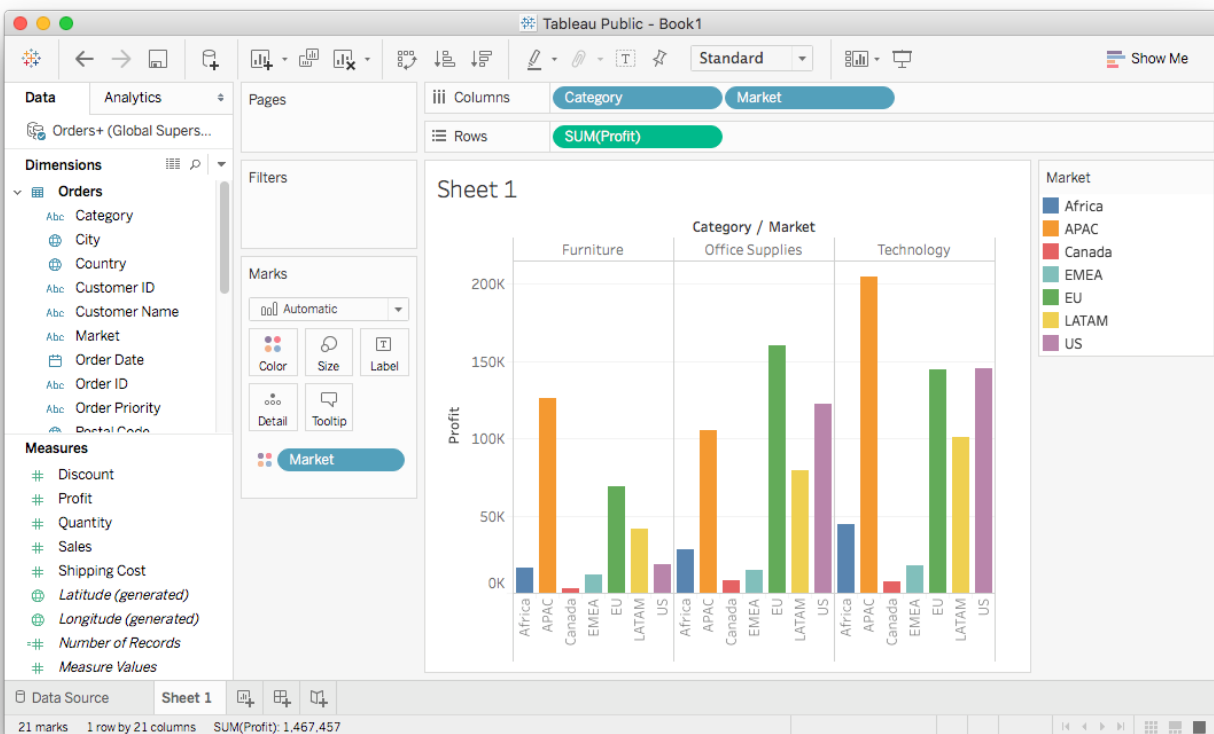

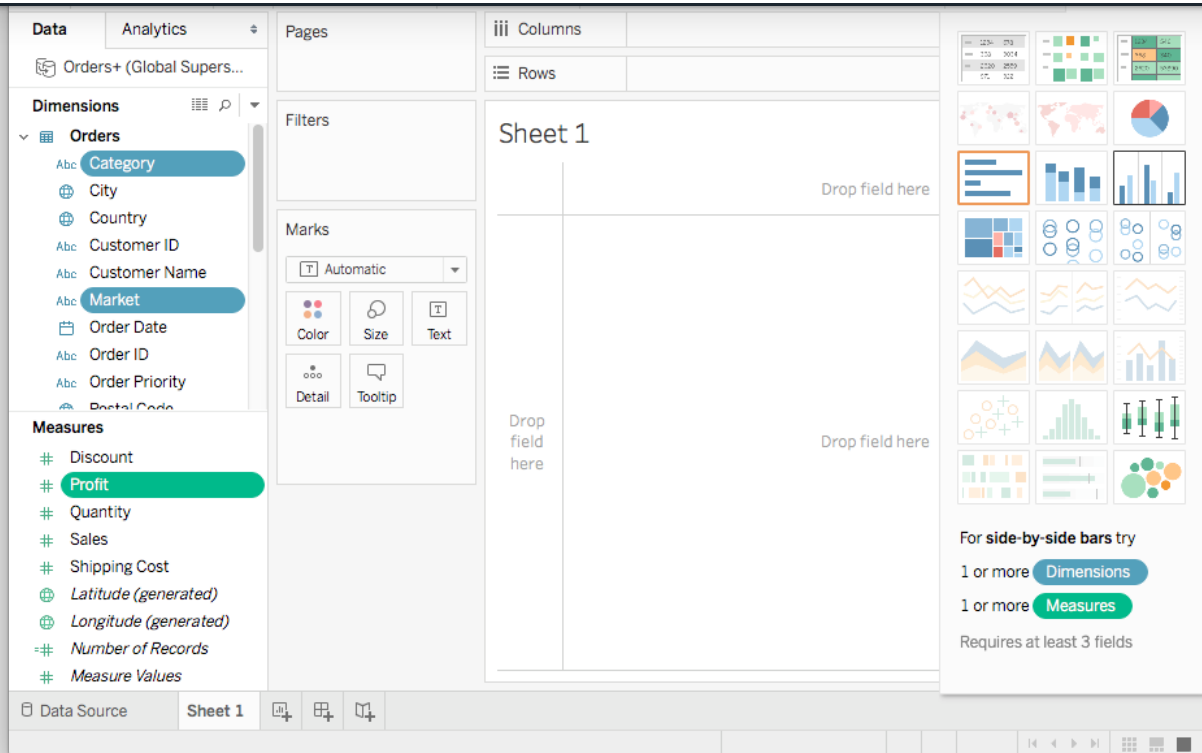

### Show Me

The Show Me feature is a quick way to start with a basic graph which you can add to afterwards. You can find it in the top-right of the sheet. You can see it in action below.

You can see that side-by-side bars wants one or more dimensions and one or more measures. Try selecting **Market**, **Category**, and **Profit**. You can hold command control (depending on your operating system) and click on multiple fields to select them. With those selected, select side-by-side bars and it'll make the graph for you.
